

DIVYANSH AGARWAL

Data Engineer · SQL · Power BI · SSIS · Python | 3.5 Years BFSI

+91-8272056463 | divyanshag4@gmail.com | Delhi-NCR (Open to Remote) | linkedin.com/in/divyansh-agarwal

PROFESSIONAL SUMMARY

Data Engineer with 3.5 years in BFSI building production ETL pipelines, BI dashboards, and data automation systems at HDFC Bank. Core expertise in SQL, SSIS, and Power BI (DAX), with hands-on AWS and Python experience. Owns pipelines processing 3TB+ of monthly transaction data across 12+ banking systems — delivered ₹5+ Cr in annual cost savings and cut RBI compliance reporting time from 3 days to 3 hours. Regularly presents data insights to VP/SVP-level leadership.

KEY ACHIEVEMENTS

₹5+ Cr Annual Cost Savings	90% Reporting Time Cut	3TB+ Data Processed/Month	10,000+ Users Served
-------------------------------	---------------------------	------------------------------	-------------------------

TECHNICAL SKILLS

SQL: CTEs, Window Functions, Stored Procedures, Indexing, Execution Plan Analysis

ETL & Pipelines: SSIS, Incremental Loads, Data Validation, Performance Tuning

BI & Reporting: Power BI (DAX, Star Schema, RLS), Tableau, Advanced Excel

Cloud & Other: AWS (S3, EC2, Lambda), Python (Pandas, Automation), Git, Data Warehousing

WORK EXPERIENCE

Data Engineer | HDFC Bank Ltd. | Feb 2023 – Present | Mumbai

- Designed and maintain SSIS ETL pipelines integrating 12+ banking systems, processing 3TB+ monthly transaction data with 99%+ reliability.
- Built Power BI dashboards (DAX, Star Schema, RLS) for RBI regulatory reporting — cut reporting cycle from 3 days to 3 hours (90% reduction).
- Wrote SQL + Python anomaly detection pipeline scanning 10M+ daily records; caught ₹2 Cr in unbilled transactions within 3 months of going live.
- Reduced execution time by 35% across 50+ production SQL queries via indexing strategy, stored procedure redesign, and execution plan tuning.
- Designed star-schema data models for branch and retail analytics — self-serve Power BI reports now serve 10,000+ business users bank-wide.
- Automated reporting workflows end-to-end, cutting manual effort by 80% and saving ₹5+ Cr in operational costs annually.

Software Developer – BFSI Integrations | Decimal Technologies Pvt. Ltd. | Feb 2022 – Aug 2022 | Gurugram

- Built REST API integrations for enterprise banking mobile apps (Flutter, Android Studio) and implemented secure data-exchange protocols with core banking systems.

KEY PROJECTS

Branch Performance Scorecard | Power BI · SQL · SSIS | HDFC Bank

- Built an executive Power BI dashboard tracking CASA growth, deposit targets, and cross-sell penetration across 500+ HDFC branches — used in monthly business review meetings at regional head level.
- Designed the SQL data model (CTEs, window functions, incremental SSIS loads) for MTD/YTD branch metrics and performance rankings, replacing 4+ hours of weekly manual MIS work.

NPA Early Warning & Portfolio Health Monitor | SQL · Power BI | HDFC Bank

- Engineered a SQL rule engine flagging retail loan accounts showing early delinquency signals (consecutive missed EMIs, sharp balance drops) across 2 lakh+ active accounts.
- Connected output to a Power BI dashboard with drill-through to account-level details and RM assignments — Risk team now acts proactively before accounts slip into NPA.

EDUCATION

B.Tech, Information Technology | Bharati Vidyapeeth's College of Engineering, New Delhi | 2018 – 2022

Post Graduate Program, Data Engineering | NIIT Limited | Sep 2022 – Jan 2023
